Tarik Sorguc

Mashine Learning Engineering Intern @FlyRank AI | Data Science
Student @IBU | Secretary General @UNSA Racing
Sarajevo, Federation of Bosnia and Herzegovina, Bosnia and
Herzegovina

Summary

Hi, my name is Tarik Sorguč, and I am final year IT Engineering student at International Burch University, majoring in Data Science & AI, driven by the challenge of building scalable, data-driven systems. My background blends rigorous mathematical foundations—like Linear Algebra and Discrete Math—with hands-on software development in Python and JavaScript. Currently, I serve as Secretary General for the UNSA Racing Team (Formula Student), where I bridge the gap between technical feasibility and business planning through data analysis and financial modeling. Tech Stack: - Languages: Python, Java, Kotlin, JavaScript, TypeScript. - Databases: MySQL, PostgreSQL, MongoDB, Redis DB. - Web: HTML5, CSS3, Tailwind, Bootstrap. - Tools/Core: System Analysis (UML), Data Modeling, MS Office 365. I am actively seeking internship opportunities where I can apply my engineering mindset and analytical skills to real-world software and data challenges.

Experience

FlyRank AI

Machine Learning Engineering Intern

June 2026 - Present (3 months)

Sarajevo, Federation of Bosnia and Herzegovina, Bosnia and Herzegovina

Currently interning at FlyRank AI as an AI intern, focusing on Machine Learning.

UNSA Racing Team

2 years

Secretary General

September 2025 - Present (1 year)

Sarajevo, Federation of Bosnia and Herzegovina, Bosnia and Herzegovina

As General Secretary, I serve as a primary representative for the Association, managing strategic interactions with corporate sponsors and team partners

to secure essential resources for our Formula Student program. I work in close coordination with the Team President to execute organizational strategies, oversee daily activities, and ensure administrative excellence across the board. My role extends beyond high-level administration to include deep collaboration with the Team's Dynamics section, where I help align organizational goals with technical engineering objectives. By bridging the gap between business operations and vehicle performance data, I ensure that the team functions as a cohesive, professional unit focused on delivering a high-performance racing platform.

Team Lead - Statical Affairs and Sponsorships

September 2024 - Present (2 years)

Sarajevo, Federation of Bosnia and Herzegovina, Bosnia and Herzegovina

My role involves the financial management and business planning for the UNSA Racing Team, the only Formula Student Team coming from Bosnia & Herzegovina. I am in charge of sponsorship acquisition and fundraising, applying my analytical skills to prepare detailed cost calculations, carbon emission reports, and feasibility studies. I manage a small team, ensuring our static event deliverables are prepared, presented, and managed effectively. This position has provided hands-on experience in project management, data analysis, and technical communication, which I believe are directly transferable to a future career in IT.

Freelance | Self-Employed

Front-End Web Developer

June 2025 - October 2025 (5 months)

Sarajevo

I worked as a freelance Front-End Developer, building a responsive and user-friendly website that sold local artists' paintings. The project helped me increase my proficiency in HTML, CSS, and JavaScript. This experience helped me apply skills gained at the university in a real-world project and deliver high-quality web solutions.

World DanceSport Federation (WDSF)

Member of Bosnian National Team

August 2021 - December 2024 (3 years 5 months)

Sarajevo

- 3x Vice-Champion of Bosnia and Herzegovina in the Latin category.
- Represented Bosnia and Herzegovina at international competitions as a member of the national team in Youth, Under 21, and Adult categories.

- Represented Bosnia and Herzegovina at three World Championships and one European Championship

Education

International Burch University

Bachelor of Science - BS, Data Science and AI · (March 2025 - July 2027)

University of Sarajevo

Preparatory Courses in the field of Electrical Engineering · (October 2023 - February 2025)

JU Gimnazija Dobrinja

High School Diploma, General Studies · (September 2019 - May 2023)
